Heather presented a video of the King Fire. Just seeing the opening picture of the fire gave most of us the chills. 97,000 acres burned, 2,380 people evacuated, 8, 600 people and equipment were deployed and at one point 50,000 acres burned in 6 hours. It's all in our memory but amazing to see the photos. Try to make it the next time Heather shows the video...it's worth seeing.

The video ended with the following promise: "WE WILL RESTORE, REBUILD, REGROW AND 'PREPARE OUR COMMUNITY' "

July 4th Parade: Becky reported that all is in good progress. Jim has offered to help with closing the roads with the heavy signs.

Flea Market: The Flea Market is this Saturday. Becky volunteered to help. At sign up sheet was passed around for future helpers.

June and July still need a volunteer to work with Jack.

Aug: Dave Rogers, September: Eric , October is the Club Fundraiser with all members needed to participate.

501-c-3 with Cameron Park: Kevin reported he will work on this after school is over. He is confident that it will be available for use for the Evening in the Orchard donations.

Nepal Shelter Box: The donation form was given to Kevin to forward a \$1000 check to the El Dorado Hills Rotary Club. Dave reported that District 5180 (El Dorado Hills District) has raised \$33,000 for Nepal relief thus far.

Other business: Eric reported that Camino School is working with the REGL program for 8th grade students. Also that he turned in a reservation for DSG with Winnie Wakely, a school/program for disabled students that is housed on the Camino Campus, is a potential use for

the DSG. Details and specifics still need to be worked out for this idea. Any other suggestions for the use of District Matching Grants are welcome.

Christa mentioned that she attended the Interact Breakfast, and was very complimentary, and that next year she believes the Breakfast can be used as a Vocational program for Club recognition (SOS).

Christa also reported that she shared the process we use for Mini-Grants with Camino Action Committee and as a result of the Mini-grant request concept CCAC awarded \$7,000 to Camino School for a variety of uses.

Dave closed the meeting with the observation made by many geologists that Earthquakes commonly occur during the months of March, April, May and again in September , October and November. This is believed to be because of the Earth Tides when the moon is closet to the earth.

The meeting was adjourned at 9:00 by Dave Rogers.

Respectfully submitted in Ken's absence,

Carol Abbanat
